Course Delivery

- Blended Learning Approach
- Asynchronous Mode
  - Self Reading of pdf
  - Pre-recorded videos
  - Attempt the quizzes (Marks will be counted towards the CA)
- Synchronous Mode (Zoom)
  - Lesson Recap
  - Code Demonstration
  - Workshop Clarification
  - Q&A

Day 1-5 Schedule

Day	Module
1 (7 May 2024)	Installation and Setup Walkthrough, Numerical Calculation & Data Manipulation with NumPy, Data Analysis with Pandas Code Walkthrough
2 (9 May 2024)	Machine Learning, Linear Regression, Classification & Logistic Regression, KNN
3 (10 May 2024)	Linear Regression Code Walkthrough Logistic Regression Code Walkthrough Underfitting & Overfitting Recap KNN Code Walkthrough (Workshop)
4 (13 May 2024)	Decision Tree, Time Serie, Deployment
5 (14 May 2024)	Decision Tree Code Walkthrough Time Series Code Walkthrough Deployment Code Walkthrough
6 -10 (16 – 24 May 2024)	Refer to Cher Wah's Notes

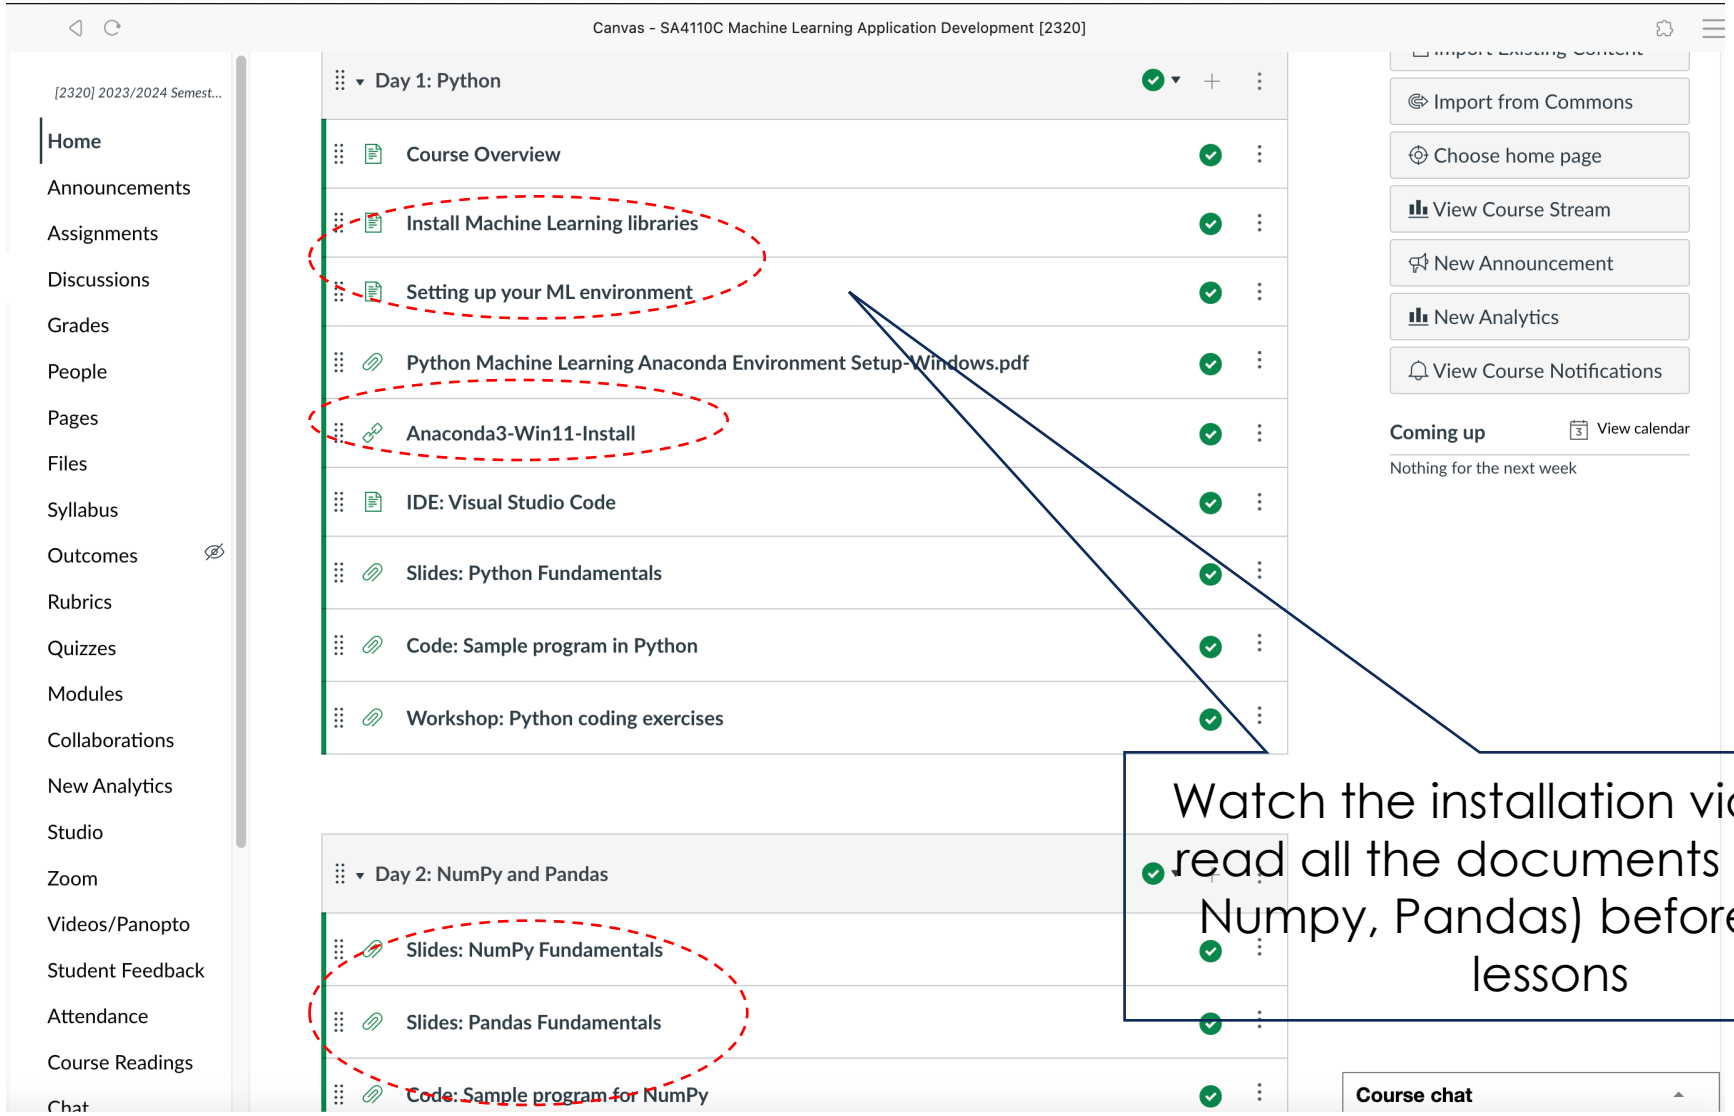
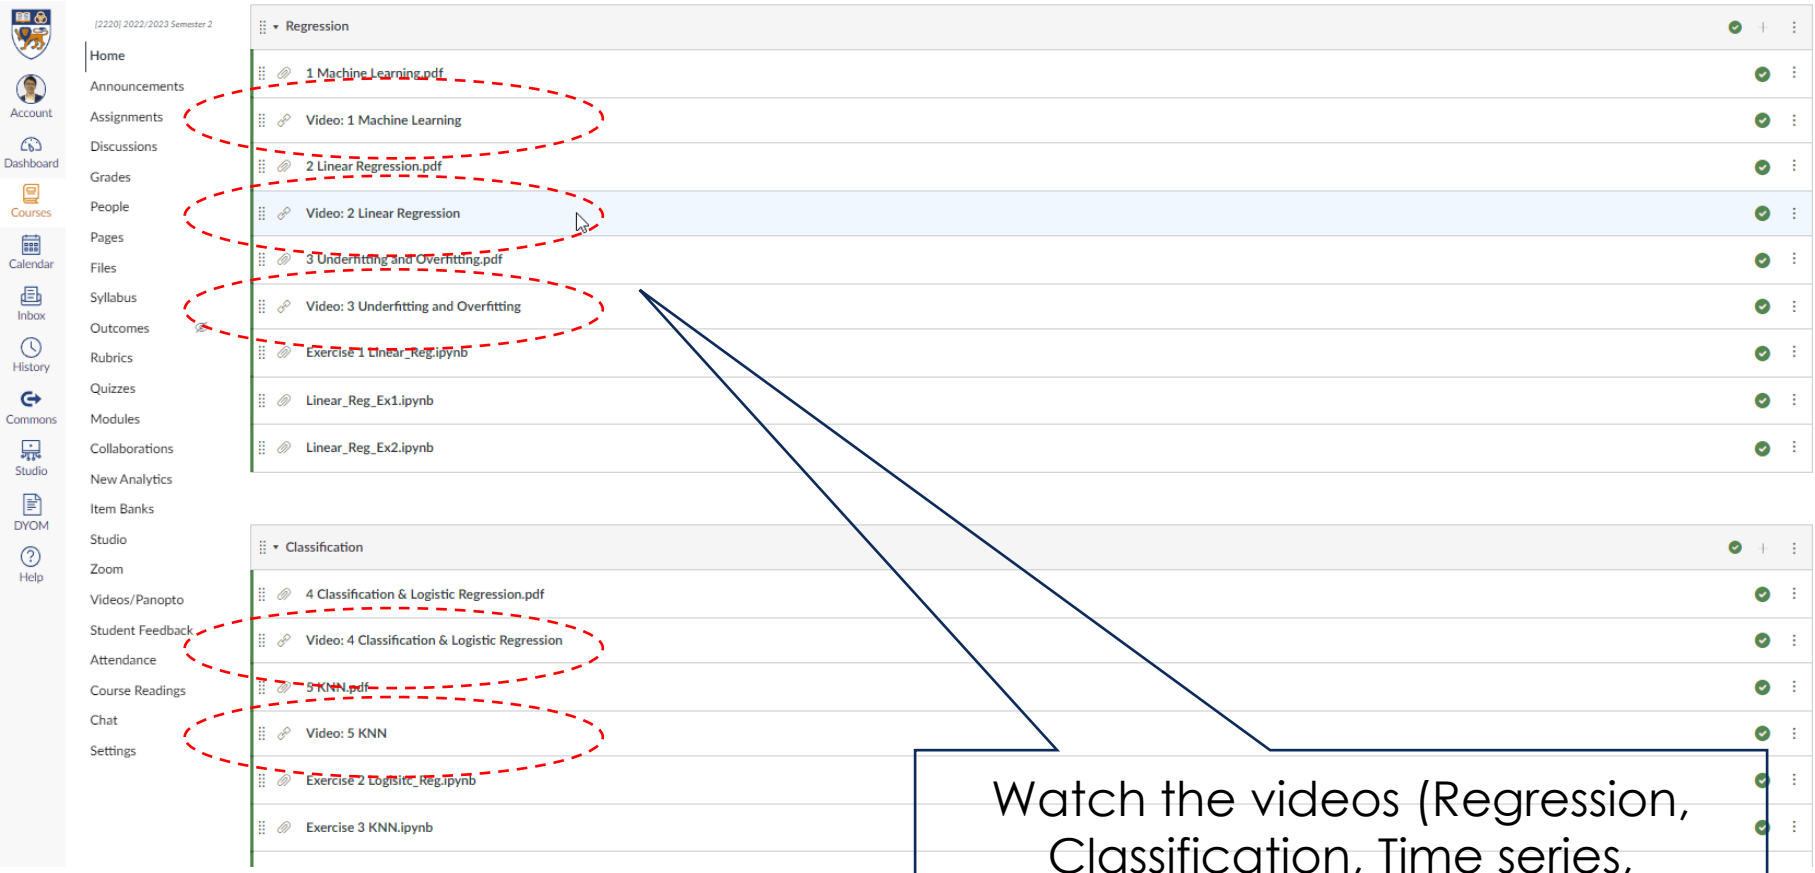
Videos



Watch the installation video and read all the documents (Python, Numpy, Pandas) before Day 1 lessons

© 2023 National University of Singapore. All Rights Reserved

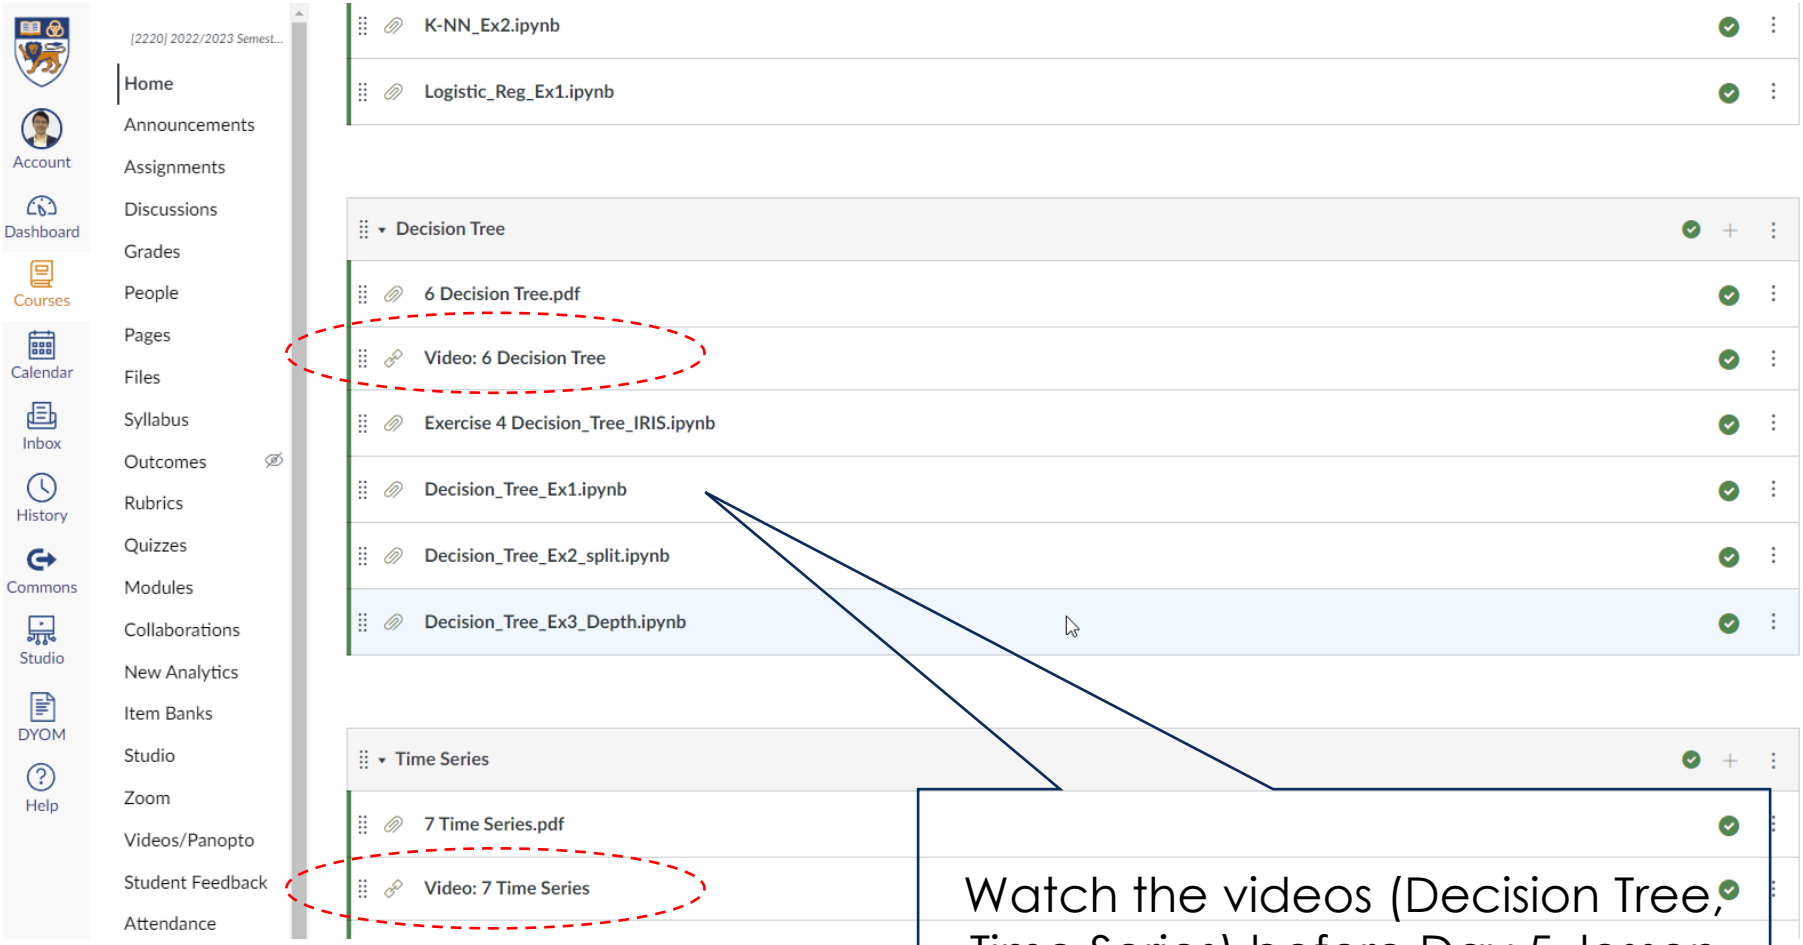
Videos



Watch the videos (Regression, Classification, Time series, Classification, KNN) before Day 3 lessons

© 2023 National University of Singapore. All Rights Reserved

Videos



Watch the videos (Decision Tree, Time Series) before Day 5 lesson
